

MOUNTAIN TRAIL CAMPERS CAMPERS

Quality Australian Made Camper Trailers

MODEL OVERVIEW

Mountain Trail Campers are high quality Australian made off-road camper trailers designed to withstand harsh outback touring conditions. Our campers have been tested in all regions of Australia, and are proven to be reliable, durable and practical. We were judged by Camper Trailer Australia as a finalist in the 2011 and 2012 Off-Road Camper of the Year. This test was based on off road performance, ease of use, family friendliness, quality and value.

Our campers are easy to tow, fast to set up and suitable for families with a desire for quick weekend getaways and holidays, through to retired couples and

families looking to tour outback Australia in ease and comfort.

We have three models in our range to choose from, all built with an internal staircase for easy bed access and additional storage space: the Escape, Expedition and Evolution. All of our campers are available with an 8 foot tent as standard or an optional 10 foot family tent, and have a long list of standard features.

All of the three models are CAD designed, laser cut and fully seam welded, sandblasted, zinc coated and powder coated to ensure long life and ultimate protection.

ESCAPE

The Escape is a proven off road camper trailer designed for families and couples who enjoy escaping to the great outdoors with all the comforts and luxury that are necessary for an easy and enjoyable trip.

Standard Inclusions:

- Heavy duty monocoque off road construction
 - Open sided camper with 3 jerry can holders and 2 gas bottle holders
 - Luxury slide out kitchen with quality fittings

 - 10 inch electric off road brakes
- 
- 
- Eye to eye outback leaf suspension
 - 50 mm solid square axle with parallel bearings
 - 16" x 8" 6 stud off road wheels with all terrain tyres
 - Hitchmaster D035 off road coupling with handbrake
 - Rear recovery point

AUSTRALIAN MADE

EXPEDITION

Based on the Escape model, the Expedition shares the same overall dimensions, however, it features enclosed sides with five additional storage compartments and even more standard features for couples and families for extra long touring expeditions.

The enclosed storage compartments on both sides of the trailer are fitted with marine grade carpet and LED interior lighting. The jerry can holders are mounted at the front of the storage box beside the spare wheel and the twin gas bottle holders are locked away in a vented storage cupboard with the standard quick connect bayonet fitting to the slide out kitchen. Larger families and couples with outback touring desires will appreciate the extra storage space and options that the Expedition has to offer.

In addition to the Escape model, the Expedition comes standard with:

- 5 additional enclosed side storage compartments with LED lights and marine carpet lining
- Innerspring mattress and mattress cover
- Waeco 80 litre refrigerator with tie down straps

EVOLUTION

The Evolution is designed for long term heavy duty off road touring, where reliability, practicality, strength and masses of storage space are paramount. This is a camper trailer that can be towed anywhere with confidence and all the luxury that you require.

In addition to the Expedition model, the Evolution comes standard with:

- Independent coil suspension with 12 inch electric brakes and 2.5 tonne bearings
- Enclosed annexe
- Diesel hot water service with shower and ducted heating
- Additional access door to tent
- 17" Alloy wheels
